UNC TLT Collaborative, FY 2000–2001
Report on Spring 2001 Campus Funding Allocation ($8500)

1. Campus: UNCP

2. Project category or categories:

TLT Professional Development – Smart Force training

3. Project overview:

These funds were used to purchase an initial SmartForce license and provide training for instructional technology staff. The SmartForce software will provide IT staff with access to resources on a wide variety of topics. It will also be available to all faculty and staff as well as on-campus students. In addition, the software will be used to supplement training and individual consultation provided by instructional technology staff. Remaining funds were used to provide training directly to instructional technology staff. This training took the form of workshops taught away from campus.

4. Budget summary:

SmaftForce License	$5800
Training	$2880

Additional funds came from campus budget.

5. Participants:

Maureen Windmeyer, Computing Consultant, University Computing
Melanie Morgan, Computing Consultant, University Computing

6. Results of collaborative work:

7. Conclusions and recommendations:
